---	-----

Made Blue is committed to helping countries with large water shortages. For every liter of water we sell in The Commons, a 1000 liters will be donated to countries that are in need of clean water. Want to learn more?

Moyee Coffee

At The Commons we want to serve you incredible coffee that doesn't just taste good, but also does good. While fairtrade is great, there's a big downside — it takes ages for the profits from producing coffee to reach the developing country. That's why we partner with Moyee Coffee — it's produced in Ethiopia as part of their fairchain programme. From harvesting the beans to roasting and selling them, the developing country makes more money every step of the way. And that's just how we like it.
